September 2025

Dear Parents and Carers,

I am writing to inform you about an important update to homework in Year 5, which will be implemented to enhance our students' learning experience.

Starting this week, all homework will be set online through the Learning By Questions (LBQ) platform. I am pleased to inform you that your child has already received their login details, which will enable them to access their assignments easily. This new system not only allows for a more interactive and engaging approach to homework but also provides immediate feedback on their progress.

Every Friday, we will assign new tasks that are designed to reinforce the concepts learned in class over the previous week. Students will be expected to complete these assignments by the following Friday. This weekly schedule will not only help in building a routine but also foster a sense of responsibility and commitment to their studies.

We highly encourage you to engage with your child during this process. Discussing their homework tasks and the challenges they may face can greatly enhance their understanding and motivation. Should you encounter any difficulties regarding the platform or the assignments, please do not hesitate to reach out for assistance.

Thank you for your continued support and engagement in your child's education. We are excited about this new initiative and hope it contributes positively to their learning journey.

Yours sincerely,

Mr Hollyoake
